Contact Resistance Meter SBE - CRM 200 SBE - CRM 500

SPECIAL FEATURES

- True Four Terminal Measurement.
- 200 Amp. DC Constant Current Source.
- 3.5 Digit LCD / LED Display.
- 1 $\mu\Omega$ resolution.
- Fast response Time.
- Stable and Fast Measurement.

APPLICATION FIELD

- Circuit Breakers.
- Isolators.
- Busbars Component Manufacturer.
- Current Transformer Manufacturer.
- Cable & Joints.
- College Laboratories.

PRODUCT FEATURE

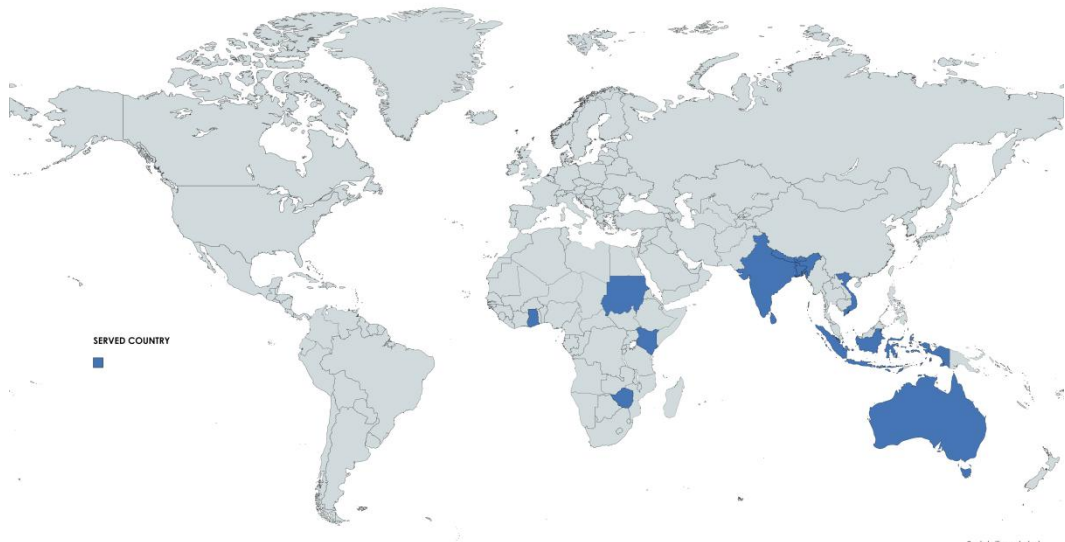

- High current: For latest power supply technology, the tester can continuously output high current which overcomes the weakness Of instantaneous current produced by pulsed power. It can effectively breakdown/puncture the oxide layer of the switches and then get precise results.
- Strong anti-interference ability: The last number of test data will stably show in the LCD screen only with ± 1 error even in strong Interference situation.
- Long service life: All the precise resistances used in the tester can reduce the temperature's impact on the measurement results and military connectors can enhance vibration resistance.
- Convenience: Small size, light weight.
